

2019 SUMMER LEARNING ACADEMY

MOTION, BALANCE & CREATIVITY ACADEMY

(students entering gr. 2-4 and 5-7)

This academy is a fun and exciting mix of Art and Physical Education. The Art portion of the academy will center around refining art skills through painting. Students will create one or more paintings throughout the program. Participation in a one-on-one critique process with the instructor will help to improve each student's overall work so he/she can come away from the academy with an art piece. The Physical Education portion will focus on games and activities that foster team building, positive leadership, and critical thinking skills. The students will engage in new activities each day. Students should bring a snack and a water bottle.

REGISTRATION DEADLINE: JUNE 7th!

June 24 - 28

West Woods Upper Elementary School

Half Day and Combo programming available - visit
