

Every morning before you send your child to school please check for the following:

⚠ Does your child have a temperature of **100.4 degrees** or greater?

⚠ Does your child have any other signs of COVID 19? *See the below list*

⚠ Was your child in close contact (within 6 feet for more than 15 minutes) with anyone confirmed with COVID-19 within the last 2 weeks?

✗ If the answer is **YES** to any of these questions, **DO NOT** send your child to school. Instead, begin quarantine of your child and contact your healthcare provider. Strongly consider COVID-19 testing.

⛔ If your child has been tested for COVID19 **DO NOT** send your child to school until the results have been obtained

These health protocols incorporate recommendations from the Center for Disease Control (CDC) and the State of Connecticut Departments of Health and Education

COVID-19: When a student, faculty or staff member can return to school 

Individual

Symptomatic (Key COVID 19 Symptoms)

No Symptoms

<p>Not tested for COVID-19, No known exposure to COVID19 <b>WITH</b> alternate explanation (strep, influenza etc. as determined by a doctor)</p>	<p>May return to school after <b>24 hours</b> resolution of fever without fever reducing medications <b>AND</b> written documentation is provided by a medical provider offering an alternate medical diagnosis and the provider indicates it's appropriate for the patient to return to school</p>	<p>N/A</p>
<p>Not tested <b>WITHOUT</b> alternate explanation</p>	<p>Must remain home for at least <b>10 days</b> from the first day symptoms appeared <b>AND</b> be <b>24 hours</b> fever-free without fever reducing medications and with improvement of symptoms <b>Note:</b> If symptoms experienced are those listed in blue on the front symptom list, the child <b>MAY</b> be able to return to school sooner than 10 days – <b>MUST</b> consult with school nurse for additional guidance.</p>	<p>N/A</p>
<p>Tested Negative</p>	<p>The individual can return to school with a negative test <b>AND</b> written documentation is provided by a medical provider offering an alternate medical diagnosis and the provider indicates it's appropriate for the patient to return to school. If no alternative diagnosis, isolate for at least 10 days from the first day symptoms appeared and be <b>24 hours</b> fever-free without fever reducing medications and with improvement of symptoms. Test may have been a false negative.</p>	<p>May proceed with attending school. <b>EXCEPTION:</b> A known close contact (within 6 feet of a confirmed case for more than 15 minutes) must complete a 14-day quarantine, even if the test is negative.</p>
<p>Tested Positive</p>	<p>Must remain home in isolation for at least 10 days from the date symptoms began <b>AND</b> be <b>24 hours</b> fever-free without</p>	<p><b>Isolate</b> at home for 10 days from when the test was taken.</p>

	fever reducing medications and with improvement of symptoms.	If the individual develops symptoms, <b>MUST</b> isolate for at least 10 days from the date symptoms began <b>AND</b> be <b>24 hours</b> fever-free without fever reducing medications and with improvement of symptoms.
Close Contact (within 6 feet for 15 minutes or more with a confirmed COVID – 19 case)	N/A	<b>Quarantine</b> for 14 days before returning to school. Must remain symptom free. If individual develops symptoms, then refer to the symptomatic scenarios.
